Introduction

The identification and protection of items evaluated as being of heritage significance is highly valued by the Goulburn Mulwaree Community. The Local Government Area contains 355 heritage items and 6 Heritage Conservation Areas. The on-going management of the heritage inventory includes the accurate documentation and recording of these items, and is seen as fundamental to protecting these valued assets.

A Heritage Study Review was completed in January 2018 which undertook a review of existing heritage studies to:

- Identify and record items of heritage significance
- Identify and describe the particular environmental qualities of Goulburn Mulwaree LGA
- Review existing items for their worthiness for retention
- Review and make recommendations regarding amendments to conservation objectives, policies and strategies
- Propose priorities for heritage conservation action

The Heritage Study Review made 15 recommendations with two of these recommendations achieved through a major review of Section 3 of the Goulburn Mulwaree Development Control Plan 2009. These included amended controls and regulations for non-Aboriginal heritage through the LEP and DCP and the review of Aboriginal heritage management and listings adopted by Council on 18 November 2018.

The Heritage Study Review also included high and medium priority recommendations as follows:

1. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 to correct anomalies and errors*
2. *Amend the Goulburn Mulwaree LEP 2009 heritage mapping to correct anomalies and errors*
3. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 and heritage mapping to separate multiple items to create each site as an individual item.*

The above outstanding recommendations from the Heritage Study Review were endorsed to proceed through the preparation of a planning proposal to make the necessary Schedule 5 amendments on 5 November 2019.

Goulburn Mulwaree Council has now completed a substantial housekeeping review to carry forward recommendations outstanding from the Heritage Study Review 2018 to:

- Correct errors and anomalies to Schedule 5 of the GM LEP
- Correct mapping anomalies and errors to the LEP Heritage Maps.
- Amend Schedule 5 and heritage mapping of the GM LEP to separate multiple items to create each site as an individual item.

This planning proposal has been prepared in accordance with Section 55 of the Environmental Planning and Assessment Act 1979 (EP&A Act) and the two documents prepared by the NSW

Department of Planning, Industry and Environment titled, *A Guide to Preparing Planning Proposals and A Guide to Preparing Local Environmental Plans*.

The Heritage Review applies to non-indigenous heritage items only. Heritage Conservation Areas and Aboriginal heritage places do not form part of the current Heritage Review proposed changes.

The amendments proposed through this planning proposal do not involve the inclusion of heritage items not currently listed within Schedule 5 of the LEP, any revision to their significance or any removal of items not already demolished.

This planning proposal is seeking to:

- remove items demolished or found not to be within the local government area;
- separate heritage listings with multiple items into single items with consequential renumbering on the LEP HER maps;
- Update address details and lot and DP numbers to ensure accuracy, and
- Amend maps to ensure they accurately reflect boundaries of heritage items.

Part 1 – Objectives

1.1 Intended Outcomes

The intended outcome of this Planning Proposal is to amend *Goulburn Mulwaree Local Environmental Plan 2009* (GM LEP 2009) to ensure the legal property descriptions, locations and lot and deposit plan numbers of heritage items located within the LGA are correctly identified within Schedule 5 of the LEP 2009 and the associated heritage maps. An additional outcome is to separate multiple heritage items which currently fall under one identification number which have no discernible relationship to one another. This process will increase the number of listed items from the current 355 to 612. Proposed amendments to the GM LEP 2009 are presented in the Updated Schedule of Heritage Items in appendix 1.

Part 2 – Explanation of Provisions

The objectives of the planning proposal will be achieved by amending Schedule 5 Environmental Heritage of the GM LEP 2009, as listed in the attached schedule amendment (appendix 1) and by amending the relevant heritage maps consistent with updated schedule 5.

The proposal to make changes to the GM LEP 2009 heritage schedule and associated heritage LEP mapping by separating multiple items will also require a number of new and modified heritage inventory sheets for the affected properties. I.e. lot number and street address for property description on the Heritage NSW website and the addition of new heritage inventory sheets for separated properties. These will be prepared through a process of revision subsequent to the endorsement of this planning proposal.

The format of Schedule 5 is prescribed by the standards of the Department of Planning, Industry and Environment (The Department) and the changes will align with the format of the current LEP 2009 Schedule.

Part 3 – Justification

Section A – Need for Planning Proposal

3.1 Is the Planning Proposal a result of any strategic study or report?

Yes- The Heritage Study Review (Jan 2018) adopted by Council on 20 February 2018 sought to identify and record items of heritage significance, describe and identify the particular environmental qualities of the LGA, review the worthiness of heritage items for retention on schedule 5 of the GM LEP 2009 and recommend amendments to conservation objectives, policies and strategies.

The Heritage Study Review made 15 recommendations with two of these recommendations achieved through a major review of Section 3 of the Goulburn Mulwaree Development Control Plan 2009. These included amended controls and regulations for non-Aboriginal heritage through the LEP

and DCP and the review of Aboriginal heritage management and listings. These DCP amendments were adopted by Council resolution on 20 November 2018 (appendix 3).

The Heritage Study Review also included high and medium priority recommendations as follows:

4. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 to correct anomalies and errors*
5. *Amend the Goulburn Mulwaree LEP 2009 heritage mapping to correct anomalies and errors*
6. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 and heritage mapping to separate multiple items to create each site as an individual item.*

The above outstanding recommendations from the Heritage Study Review were endorsed to proceed through the preparation of a planning proposal to make the necessary Schedule 5 amendments on 5 November 2019.

The Council meeting on 5 November 2019 made the following resolutions:

That:

1. *The report of the Senior Strategic Planner regarding the revision of Schedule 5 Environmental Heritage of the Goulburn Mulwaree Local Environmental Plan 2009 be received.*
2. *A Planning Proposal be prepared and forwarded to the Department of Planning, Industry and Environment for a Gateway Determination.*
3. *The proposed Revision of Schedule 5 Environmental Heritage be advertised for a period of (14) days.*
4. *Council request delegation to be the Relevant Planning Authority for the purposes of this Planning Proposal.*

The 5 November 2019 Council report and resolution are available in appendix 2.

3.2 Is the Planning Proposal the best means of achieving the objectives or intended outcomes, or is there a better way?

The proposed amendment to the *GM LEP 2009* is the only way to legally make changes to Schedule 5 to achieve the desired outcome of accurately identifying and protecting environmental heritage. Reviewing and updating Council's local heritage inventory in accordance with new information is the accepted method for protecting sites of heritage significance.

Section B – Relationship to Strategic Planning Framework

3.3 Is the Planning Proposal consistent with the objectives and actions contained within the applicable regional or sub-regional strategy?

Yes. The Planning Proposal is consistent with the *South East and Tablelands Regional Plan 2036* (SETRP, 2036).

Goal 3 of the SETRP, 2036 seeks to achieve **healthy and connected communities** with a specific direction to protect heritage of the region:

Direction 23: Protect the region's heritage - Council is acting to update its heritage listing to ensure it is up to date and accurately records the relevant details such as address, lot number and mapping extent as recommended by the Heritage Study Review 2018. This implements the recommendations of the Heritage Study Review, conserves heritage assets through local strategic planning and seeks to provide greater accuracy and certainty for stakeholders during the development assessment process.

This planning proposal is consistent with the *South East and Tablelands Regional Plan 2036* as it seeks to protect, manage and accurately record the LGA's heritage assets.

3.4 Is the Planning Proposal Consistent with a council's local strategy or other local strategic plan?

3.4.1 Goulburn Mulwaree Council Local Strategic Planning Statement (2020)

Yes - The Planning Proposal is consistent with Local Strategic Planning Statement in terms of the heritage vision: *Goulburn Mulwaree's cultural heritage is conserved, actively adapted for use (where appropriate) and celebrated*. The Proposal is also considered to align with the heritage planning principle *to maintain planning provisions to protect and conserve heritage items*.

3.4.2 The Tablelands Regional Community Strategic Plan 2036

Yes - The Planning Proposal is consistent with the *Tablelands Regional Community Strategic Plan (TRCSP) 2030*, in particular with *Strategy C04 – Recognise and celebrate our diverse cultural identities, and protect and maintain our community's natural and built heritage*.

The planning proposal seeks to ensure the accurate recording and mapping of heritage assets within Schedule 5 of the *Goulburn Mulwaree Local Environmental Plan, 2009* to ensure the continued protection and maintenance of the local areas built heritage.

3.4.3 Goulburn Mulwaree Heritage Study Review 2018

Yes - The *Goulburn Mulwaree Heritage Study Review (2018)* undertook a review of the existing heritage studies undertaken to date for the Goulburn Mulwaree LGA. The objectives of the Study Review were to:

1. *Identify and record items of heritage significance considered worthy of conservation within the context of an historical, architectural and environmental assessment of Goulburn Mulwaree LGA.*
2. *Draw together existing information to identify and describe the particular environmental qualities of Goulburn Mulwaree LGA, its unique and typical areas, assessing the relationships of physical landscape, built environment and townscape which contribute to its recognised character. Include all towns and villages.*

3. *Review existing heritage items for worthiness for retention as listed on Schedule 5 Environmental Heritage of Council's LEP 2009. Highlight any existing and potential conflicts.*
4. *Review and where relevant recommend amendments to conservation objectives, policies and strategies for inclusion in Council's Local Environmental Plan and Development Control Plan.*
5. *Propose priorities for heritage conservation action in Goulburn Mulwaree LGA.*

The Heritage Study Review identified numerous errors and/or inconsistencies in heritage item mapping and listings within Schedule 5 of the LEP as a particular issue to address. In addition it also highlighted concerns with the interpretation of Schedule 5 due to some listings including more than one item or property.

In light of these identified concerns the Study Review presented three relevant recommendations to ensure accuracy in the presentation of information on heritage items as follows:

1. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 to correct anomalies and errors*
2. *Amend the Goulburn Mulwaree LEP 2009 heritage mapping to correct anomalies and errors*
3. *Amend the Goulburn Mulwaree LEP 2009 Schedule 5 and heritage mapping to separate the multiple items to create each site as an individual item.*

The Planning Proposal is consistent with the Goulburn Mulwaree Heritage Study Review 2018 by proposing updates to Schedule 5 of the LEP in terms of lot and deposit plan numbers, addresses and descriptions, in addition to separating multiple items and proposing mapping amendments where inconsistencies exist. These proposals, when complete, would fulfil the Heritage Study Reviews recommendations highlighted above.

3.5 Is the Planning Proposal consistent with the applicable State Environmental Planning Policies (SEPP)?

Most SEPP's are not applicable to this planning proposal as this is a housekeeping amendment which does not increase the number of heritage items. The Planning Proposal is consistent with the relevant SEPP's outlined below in **Table 2**.

Table 2 Planning Proposal compliance with relevant State Environmental Planning Policy's

State Environmental Planning Policy (SEPP)	Compliance of Planning Proposal
State Environmental Planning Policy (Primary Production and Rural Development) 2019.	The SEPP aims to facilitate the economic use and development of lands for primary production, reduce rural land use conflict, identify state significant agricultural land and encourage sustainable agriculture. Whilst some heritage items listed within schedule 5 of the GM LEP 2009 are located on rural land, the amendments to the Schedule do not create any new heritage items and the listings do not affect the range of permissible land uses which currently apply to the sites.
State Environmental	The SEPP requires that development consent cannot be granted unless

State Environmental Planning Policy (SEPP)	Compliance of Planning Proposal
Planning Policy (Sydney Drinking Water Catchment) 2011	there is a neutral or beneficial effect on water quality. It is unlikely that the proposed amendment in this Planning Proposal will result in a negative effect on water quality as the proposal relates to a housekeeping amendment only. No additional development or Heritage listings will result from this proposal.

The Planning Proposal will not impact any critical habitat or threatened species, populations or ecological communities, or their habitats as a result of any change to the details of the existing heritage listings. The level of protection afforded to critical habitat, threatened species populations or ecological communities will be maintained as a result of this Planning Proposal.

3.8 Are there any other likely environmental effects as a result of the planning proposal and how are they proposed to be managed?

There are no environmental effects envisaged as a result of any change to the details of the existing heritage listings within Schedule 5 of the GM LEP 2009.

3.9 Has the planning proposal adequately addressed any social and economic effects?

This Planning Proposal has positive social effects in ensuring the precise identification and protection of heritage items through the provision of up-to-date and accurate heritage item descriptions and mapping.

The Planning Proposal will not result in adverse economic effects as no new items or provisions are proposed.

Section D – State and Commonwealth interests

3.10 Is there adequate public infrastructure for the planning proposal?

No further public infrastructure provision is necessitated by this planning proposal.

3.11 What are the views of State and Commonwealth public authorities' consultation in accordance with the gateway determination?

Commonwealth public authorities have not been formally involved in this Planning Proposal. No issues of interest to Commonwealth authorities have been identified.

Preliminary advice has been sought from the Department of Planning, Industry and Environment (DPIE) and the Geographical Information System branch of DPIE.

The Department advised that this planning proposal is a minor housekeeping amendment which can proceed with no agency referral or community consultation.

The GIS Branch confirmed their ability to create a separate item number for each property for Heritage mapping when they have no discernable relationship.

Part 4 – Mapping

This Planning Proposal will require amendment to many of the 24 heritage map tiles which cover the Goulburn Mulwaree Local Government Area. Appendix 4 presents the current Schedule 5 HER numbers by LEP HER Map tile alongside their proposed number updates and an indication of the type of changes made.

These mapping amendments are required to overlay new item ID numbers onto the heritage mapping layer, due to consequential renumbering and as a result of separated items with newly created individual item numbers.

Mapping amendments also include changes to the boundary extent of some items which are currently inaccurate which are illustrated in appendix 5.

The Planning Proposal does not seek to alter the zoning, height of buildings, floor space ratio or any other LEP 2009 maps.

An example of the proposed mapping changes relating to separated items is presented in Figures 1 and 2 below.
