Foreword

It is with great pleasure that on behalf of Council we bring you 2023-2024 Operational Plan and budget which is the second year of our elected Council and the four-year delivery program.

In order to continue to build on the incredible foundations that were created over the past four years, Council seeks to develop another ambitious program while maintaining a focus on its core activities, particularly maintaining country roads, fixing potholes, and providing water and sewer services.

Due to the delay of the elections caused by COVID-19, this is a shorter Council term period, with the next election to be held in September 2024, meaning this Council will serve for just under three years in total. A major focus for the 2023/24 Operational Plan & Budget is outdoor facilities for leisure and for sport, with projects locked in for Goulburn and for Marulan.

It is the most important role of Council to ensure critical infrastructure is maintained and upgraded, so we are investing \$13 million to upgrade the Marulan Water Treatment Plant and the Sewer Treatment Plant. By doing so, the town will greatly improve these services and be able to unlock the growth potential, enabling it to resume its development pipeline.

Around the region Council will also spend significant funds on a number of regional, rural and urban roads. Windellama Road upgrade continuation, Clinton and Deccan Street upgrade, Middle Arm Road, Curawang Road, Oallen Ford Road, Deterioration improvement works on various roads across the Local Government Area through Regional and local road repair funding.

Council is not immune to the current economic conditions facing the region, as a result Council will continue to monitor its service delivery to rate payers on a fiscally responsible way.

This plan's highlights for the financial year 2023-2024 are presented below.

Goulburn Waste Management Centre Drilling Mud: \$1,830,595 is allocated to the construction of drilling mud facilities at the Goulburn Waste Management

Centre. This is for the disposal and drying out of drillers mud for landfill disposal to cater for the increasing use of hydro excavation vehicles.

Goulburn Water Treatment Plant: \$5.6 million is allocated to the upgrade of the residual management facilities at the Goulburn Water Treatment Plant. This will be designed to allow more efficient drying of the sludges currently produced as well as manage future projected production rates for the treatment plant.

Goulburn Wastewater Treatment Plant: This project of \$ 15,015,700, including NSW Government Funding of \$11,261,775, is allocated to increasing the capacity of the Goulburn Wastewater Treatment Plant to 40,000 Equivalent Persons to cater for housing growth in Goulburn.

Potholes: \$2.33 million was secured from the Regional and Local Roads Repair Program to fix potholes in the Local Government Area.

Netball Courts: \$926,798 has been received through NSW Government grant funding for resurfacing and light installation of our netball courts at Carr Confoy. Netball is one of the region's biggest sports based on participation numbers, and we are looking forward to undertaking these court improvements.

Carr Confoy Pavilion: Final designs for a new pavilion at the Carr Confoy sporting fields have been completed, and construction will commence in the 23/24 financial year. This will be a magnificent new building, which will service Netball, Touch Football and other current and potential users of the sports fields.

Kinghorne/Albert Street roundabout: \$584,797 In Federal funding has been received through the Blackspot Program due to a number of serious incidents occurring at this intersection; a roundabout will be built this financial year

Deccan Street rehabilitation: \$2 million has been allocated, including \$1.5 million grant funding, to rehabilitate and resurface Deccan Street from Clinton Street to Goulburn Mulwaree High School

Rural Roads: As highlighted above, over \$6.5 million will be spent on Rural Roads in this financial year alone, with significant works on Windellama Road, Oallen Ford Road, Middle Arm Road and Currawang Road. We will also replace Mayfield Bridge this year, at a cost of \$2.2 million.

Shared Pathways: An injection of \$5.2 million will see the delivery of shared pathways in Eastgrove and South Goulburn encouraging and increasing safe walking and cycling in Goulburn.

Clinton Street Upgrade: Nearly \$3 million has been allocated to reseal Clinton Street and complete a heavy vehicle route joining with Deccan Street.

Marulan Water & Sewer Upgrades: As discussed above, \$13 million is allocated to upgrades of the Marulan Water Treatment and Sewer Treatment Plants to address current development and future growth for Marulan identified in the Urban Housing Strategy. The Marulan Treatment plant upgrade will improve the quality of treated water to Marulan.

Council is positive about the continuing growth and the encouraging future for our region and have again worked hard behind the scenes to pull this budget together and to accompany the four-year delivery program. Goulburn Mulwaree Council will continue to provide vision for our excellent region, delivering the facilities and infrastructure we need to progress.

On behalf of Council, thank you for taking the time to read the Goulburn Mulwaree Council Operational Plan and Budget for the 2023-2024 Financial Year.

The Integrated Framework

The Integrated Planning & Reporting Framework opens the way for Councils and their communities to have important discussions about funding priorities, service levels and preserving local identity and to plan in partnership for a more sustainable future.

The planning and reporting framework is essentially a set of tools from which each Council can build an integrated planning and reporting framework to suit their community's needs.

The framework will allow Councils to build plans of appropriate size, scale and content for their communities. Just as each community in NSW is different, so each Council's Community Strategic Plan will be different. The most important thing is that the Community Strategic Plan, and the implementation structures that support it, are fit for purpose and appropriate to the communities to which they relate.

Apart from providing a clear picture for the future, the planning process will help to better connect with the community to gain more detailed understanding of the area in which they live and the regional context in which the community operates. The process will also provide opportunities for Council to streamline their operations.

The main components of the Integrated Planning and Reporting legislation for Local Government are briefly outlined below.

Community Strategic Plan

Identifies the community's main priorities and aspirations for the future and plans strategies for achieving these goals (civic leadership, social, cultural, environmental and economic issues)

Delivery Program

A four year program which details the activities to be undertaken by the Council to achieve the objectives of the Community Strategic Plan (within the resources available under the Resourcing Strategy)

Operational Plan

An Operational Plan will detail Council activities within a specific financial year to achieve the actions outlined in the Delivery Program.

Resourcing Strategy

A Resourcing Strategy will inform the Community Strategic Plan and the Delivery Program. It will be made up of a long term Financial Plan, Asset Management Plan and a Workforce Management Plan. It will also identify the resources (time, money, assets and people) to fund the objectives of the Community Strategic Plan and the activities of the Delivery Program.

Annual Report

This will report to the community within five months after the end of each financial year. It will provide details of progress on implementing the Delivery Program and the achievement of objectives of the Community Strategic Plan.
