### Other Information

#### GST Disclosure

From 1 July 2000 a Goods and Services Tax (GST) applied to a number of goods and/or services supplied by Council. Those goods and/or services that are subject to GST have been identified in the attached Schedule of Fees and Charges as GST applying.

In accordance with the tax legislation the prices shown for those goods and/or services are the GST inclusive price. Some goods and/or services supplied by Council have been declared GST free or are excluded under Division 81 of the legislation. Those goods and/or services which are GST free or excluded from GST are indicated in the Schedule of Fees and Charges as GST not applying.

The attached Schedule of Fees and Charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication of the Management Plan. However, there are still a number of fees and charges for which Council is not able to confirm the GST status.

Accordingly, if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to nil. Conversely if Council is advised that a fee which is shown, as being not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST.

#### Fee Reduction or Waiver

The General Manager has the discretion to waive or reduce fees up to \$1,000 on the basis of:

- (i) Demonstrated financial hardship, or
- (ii) Public benefit (such as charitable or community projects).

The details of all decisions made by the General Manager in relation to the above are to be reported to Council at the first available opportunity.
